

Pesticides used by PP&R contractors and/or staff

6/27/2019

The following herbicides are used. The product(s) used depends on several factors, such as target species, timing, surrounding vegetation, plant form and plant sizes.

Pre-emergent

- Pendulum AquaCap
- Proclypse or Prodiamine 65
- Surflan

Foliar

- Aquaneat (aquatic foliar) – alternates: Rodeo or AquaPro
- Clean Slate – alternates: Transline or Stinger
- Crossbow
- Escort XP or Patriot
- Krenite
- Milestone
- RoundUp - alternates: Ranger Pro or KleenUp
- Triclopyr 3A
- 2,4-D Amine

Basal bark or cut stump

- Garlon 4 Ultra or Triclopyr 4

Aquatic

- Captain XTR or Cutine Plus
- Clipper
- Polaris
- Reward or Diquat SPC 2L
- Sonar One

The following insecticides are also used.

Injection

- Arbormectin

Bark drench

- Transtect

Foliar (nursery)

- Altus
- Azagaurd
- Botanigard ES
- Endeavor
- Pyganic

The fungicide Zeritol 2.0 is used in the plant nursery.
